

Jessica Whitman, CISSP, CISA

**Principal, Cybersecurity
Plante Moran
Southfield, Michigan**

Jessica has over 12 years of cybersecurity, information security, IT control, and IT audit experience in a number of industries, including manufacturing and distribution, private equity, health care, technology, service, not-for-profit, and insurance. Jessica's current role entails leading the cyber advisory services team within cybersecurity. The cyber advisory services team focuses on cybersecurity assessments, security and risk programs (including ISO and NIST), privacy programs (including GDPR and CCPA/CPRA), incident response tabletop exercises, policy development, and risk assessments. She also has experience in managing and performing information systems general controls reviews; SOX compliance; SOC 1, 2, and 3 examinations; ISO 27001 certifications; GLBA compliance; HIPAA/HITECH; and application reviews. In addition, Jessica is responsible for the cybersecurity team's data analytics initiative and for maintaining the quality of cybersecurity engagements. Jessica holds a bachelor of science degree in accountancy with a minor in management information systems from Miami University. Jessica is a Certified Information Systems Security Professional (CISSP) and a Certified Information Systems Auditor (CISA).
